

# Student Mobility Programmes at the International Office

## 1. Outgoing Students:

"Outgoings" are students of the University of Vienna who want to spend part of their study time at a foreign university under one of the following Mobility Programmes:

### 1.1. ERASMUS+ studies

### 1.3. Non-EU Student Exchange Program

Students of the University of Vienna are offered the possibility of participating in the Non-EU Student Exchange Program by spending one or two semesters at a partner university in North or Latin America, Australia, Asia, Africa, Russia or the Ukraine. This is possible, if the desired host university has concluded an exchange agreement with the University of Vienna (for all faculties or only for the field of study in question) and if the student is nominated by the University of Vienna for a Non-EU Student Exchange period abroad.

### 1.4. ERASMUS+ International Mobility

For over 25 years, Europe has funded the Erasmus program, which has enabled over three million European students to spend part of their studies in another higher education institution in Europe.

This program is designed for our Master and PhD students of selected study fields who want to spend one semester abroad at one of our partner universities.

### **1.6. Further Stays Abroad**

#### **1.6.1. Erasmus Mundus Outgoings**

ERASMUS Mundus is a programme of cooperation and mobility within the European Union. Its aim is the promotion of cooperation between universities of the European Higher Education Area and those in third countries. The programme covers several types of activities, including the promotion of top-quality European Masters and PhD programmes, as well as the provision of support to individual students and researchers.

## **2. GRANTS database of the OEAD:**

grants.at is Austria's biggest online database for scholarships and research grants for all academic areas. Financial support options for students, graduates and researchers range from classical grants and scholarships, allowances and prizes to extensive national, European and international research support programmes.

In more than 1,200 entries grants.at offers information about

- Financial support measures for studying or research for outgoings (Austrians who want to study or pursue research in other countries) and incomings (people who want to come to Austria) and
- purely national funding options.

The scope of providers of funding ranges from international organisations, the European Union, national governments in Austria and abroad (ministries and administrative organisations) and their provincial governments or municipalities to private foundations, associations and companies.
